# About

parampara gurukul

Parampara Gurukul Educational Services with its enduring vision, clear mission and 360-degree approach with holistic learning methodology endeavors to provide turnkey solutions to schools to make their digital education journey wrinkle free.

We strive to deliver the most advanced curriculum-mapped digital learning solution that empowers both educators and learners to provide and receive digital education in a new-age format that connects visuals, animations, videos, interactive multimedia resources and 3-D content, resulting in the largest database of educational digital content.

# Smartclass

## Transformation System (CTS):

Smartclass (CTS) offers a holistic teaching learning experience with every possible instruction and assessment element required by the teacher in class. Be it animation, question banks, mind maps, worksheets, unique teaching ideas, topic summaries, web links, diagram makers, simulations and teacher created resources - Smartclass offers it all.

Smartclass CTS enables teachers to effectively and seamlessly engage, explore, explain, elaborate and evaluate learners with a host of instructions and assessment materials, made available to them through an easy-to-use interface.

## SMARTCLASS METHODOLOGY

### ENGAGE
